

Amendment First Christian Church By-laws, Article V, Organization for Ministries

(ADD)

SECTION K. Digital Ministry. This ministry is responsible for procuring, maintaining and developing the necessary information technology infrastructure - hardware, software, and digital content necessary to proclaim the Word of God to the congregation, external audiences and allow the efficient conduct of church business.

The members of this ministry will be responsible for:

- Determining needed information technology (IT) infrastructure – hardware, software and platforms for disseminating the church message and conducting church business.
- Assess on hand IT hardware and infrastructure for capability, e.g. bandwidth, to adequately provide content to the desired audience.
- Develop plans and budgets to propose to the board to acquire necessary hardware and software to accomplish the church mission.
- Perform research, collect information and develop appropriate content that proclaims the Word of God and encourages “unchurched” people to find a church.
- Post this content on suitable IT platforms, e.g Facebook, Youtube, Twitter, that have the best chance of reaching the desired audience.
- Prepare an annual budget that sustains current capability as well as projects necessary to remain current with developing technology.
- Supervise an IT intern as required.
